Serge System Quotation

#

United Kingdom

tel (?)

Dear ,

Here is the complete quotation, including shipping, handling and insurance, for your Serge Modular Music System featuring the “ANIMOO” Shop ‘S’ Series panel with a 3-jack RING MODULATOR embedded in the middle of the Wave Multiplier function block plus our comprehensive, synergistic signal processor Shop ‘S’ series panel, the “ANIMATE”.

This powerfully comprehensive panel set contains a versatile and well-balanced grouping of sound sources, processors and control voltage generators, along with the amazingly versatile control “SEQUENCER” Shop panel, to provide you with the highest density of sonic power.

Also included are 40 stackable Pomona patch cords along with a precision low-noise linear Power Supply [PS4A] plus a [PSD] Power Distribution System for power isolation and RF filtering.

All will come to you as a “Turn Key System”, residing in three (3) Rack Mounting brushed aluminum (4.5” deep) Chassis Enclosures [ROX] for a beautiful and balanced system.

Thank you, for considering the “ANIMOO” voice panel paired with the “ANIMATE” and Shop “SEQUENCER” for the finest resolution instruments to best realize your sonic endeavors.

Best Regards,

Rex Probe
President

~ w/ **BLACK KNOBS!****‘ANIMOO’ PANEL #1:** (listed from left to right as laid out on the panel - totaling 16”)

1. New Timbral Oscillator	NTO	3 "	
2. Precision VCO	PCO	2 "	
3. Wave Multipliers	VCM	2 "	
4. Ring Modulator	RING	n/a	3-jack version embedded in VCM
5. Audio Mixer (3x1)	AMX	1 "	w/ ‘Phase Invert’ toggle switch & DC coupling
6. Smooth/Stepped Generator/Noise	SSG + NOI	2 "	includes the ‘Noise’ source
7. Dual Transient Generator	DTG	2 "	add ‘Signal In’ banana jacks
8. Extended Range VC ‘Q’ Filter	VCFQ(X)	2 "	Hi/Lo frequency range toggle switch
9. Universal Audio Processor	UAP	2 "	w/ ¼” Phone Jack Outs (TS)

Sub-Total: Panel #1: \$**‘ANIMATE’ PANEL #2:** (listed from left to right as laid out on the panel - totaling 16”)

1. Preamp Detector	PRNV	1 "	w/ Voltage Comparator section
2. New Timbral Oscillator	NTO	3 "	w/ “HI-LO” Range toggle switch
3. Triple Waveshaper	TWS	2 "	
4. Audio Mixer (3x1 w/ phase invert)	AMX	1 "	w/ ‘DC coupled’ Inputs #1 & 2
5. Variable Bandwidth VC Filter	VCF2	2 "	
6. Wilson Analog Delay	WAD	3 "	
7. Dual Universal Slope Generator	DSG	3 "	
8. Cross-Fader (2x1)	XFAD	1 "	

Sub-Total: Panel #2: \$**‘SEQUENCER’ PANEL #3:** (listed from left to right as laid out on the panel - totaling 16”)

1. Sequencer (8x2)	SEQ8	4 "	
2. Analog Shift Register	ASR	1 "	w/ ‘Signal Attenuator’ pot
3. Active Processor	ACPR	1 "	
4. Dual Voltage Controlled Clock	CLK	2 "	
5. Pulse Divider	PDIV	1 "	
6. Boolean Logic	BLOG	2 "	
7. 4-Stage Sequencer Programmer	SQP4	5 "	

Sub-Total: Panel #3: \$
